- THE NYEREG -

A blast from the past of the City Park which has to be seen, a cozy bistro which must to be visited, a child-friendly garden which is worth a try.

Once it was the side-building of the Artesian Bath, worked as a cavalry patrol of the civil guards, and now the 94 square meter building is the part of our cultural heritage. The building and the 822 square meter Nyereg, az Itató on which it stands wait for all ages all year.

Everyday life

When the idea of the Nyereg was born, we wanted to create a lounge bar where all ages, children, adults and forever young may find their places. The family-friendly nature of the peaceful garden is felt every day of the week - the unique combination of the City Park, nature and Nyereg is the perfect outdoor program for younger and older alike.

Among the trees, under the clouds

Among the oaks and willows of the City Park the Nyereg has more than 800 square meters available for cozy outdoor activities from early spring to late autumn, and in the colder months within the walls of the Nyereg you can enjoy hospitality and the tranquility of the City Park.

- THE NYEREG -

Life is better on six-foot

We love our four-legged guests as well. Last year we won the audience award through the “2015’s Dog-Friendly Place” competition, and will continue to encourage everyone to do not leave home the man’s best friend when coming to the City Park. Nyereg has it all that doghearts beat for.

You can only relax with full stomach

Our kitchen is all about the quick-fix, but very tasty dishes: we fill the empty stomachs with burgers, sandwiches, grill foods and pancakes in lunch and dinner time, and we wait the thirsty wanderers with huge lemonade, tea and beer selection.

Welcome to the Nyereg, which tells about the time past and our present! It may be a cozy bistro and a family-friendly garden in the same time, where you can eat, drink, rest and enjoy your time!

- OUR HOME: VÁROSLIGET / CITY PARK -

Városliget (City Park) is a public park in Budapest close to the city centre. Its main entrance is Heroes' Square (Hősök tere), one of Hungary's World Heritage sites.

This green space, measuring 0.9 by 0.55 miles (1,400 by 900 m), is one of the world's first public parks.

The park includes many things to do, including the Budapest Zoo, a small theme park, the Széchenyi thermal bath and Vajdahunyad Castle.

The City Park also gives home for a lake, which depending on the time of year you will either be able to ice-skate on or explore by hiring a rowing boat.

- EVENTS AND GROUPS -

We know, your event can be a success in many places...but!

However we believe that you only can be truly satisfied with the result - among the multifunctional space and delicious food - if you experience real hospitality. That kind of hospitality, which reminds you a family lunch.

This is exactly the key of the Nyereg events.

In our restaurant a family welcomes you. With the greatest love and the utmost attention, we will make your event memorable, be it a client party, a Christmas dinner or a team building event.

We are small but big in the same time.

In the Nyereg, we make all your dreams come true. We're big enough that no wish will be a barrier for us, but we're small enough to handle your needs as flexibly as possible and get the best out of your event to the best of your ability.

- LOCATION -

- LOCATION -
